About me

I am a web developer with a passion of bringing new concepts, ideas and layouts to life from scratch. Main area of expertises is front-end development and everything related to web functionality. Using HTML, CSS and JavaScript, I build fast and interactive websites. My focus is to create responsive websites of high quality.

Education

• Coding Dojo | Burbank - CA | 2017-2018 | SoftwareEngineer

• UCLA Extension | WestLA - CA | 2014-2016 | Design Communication Arts

• Santa Monica College | SantaMonica - CA | 2010-2013 | GraphicDesign /WebDesign

Work Experience

Company: Kobe Digital   (Oct 2018 - Current)
Title: Front End Developer
Responsible for developing and managing websites for clients on various platforms. My role is to develop only the front-end with best practice. Our clients websites vary from e-commerce to just an informational pages. My goal is always to bring a good user experience. Simplicity is the key of my code game. I am also responsible for testing the website once it is developed.

Company: Pinkette Clothing Inc.   (2014-2017)
Title: Electronic Data Interchange (EDI) Analyst
Manager of electronic data interchange systems between customers, inter-company users and vendors. Responsible for managing all orders received from our wholesale clients. Make sure everything is being shipped out on time and all orders are linked in the system. Maintained good relationship with trading partners for the company including but not limited to (Nordstrom, Bloomingdale's, Macy's, VonMaur, Forever21).

Skills
